6 people have recommended Sean

"I rarely work with a client who really "Gets it" and Sean King is one of those rare gems. Sean's steady, persistent demeanor coupled with this stellar design capabilities and holistic thinking make him a tremendous asset when it comes to researching, planing and designing engaging user interactions. I wish everyone I worked with were as sharp & tenacious as Sean. I'd love the opportunity to work with him again."

— **Matthew Doty**, *User Experience Architect/Manager, Acquity Group*, was with another company when working with Sean at Arrow Electronics

"I have worked with Sean on many web and strategic marketing programs over the last seven years. He is the authority in defining the why behind business requirements and customer needs to create the best user experiences on the web for the company. His passion in problem solving and finding the best answer to a challenge has been a huge asset to the team. His web project management is performed at a very high level and Sean is used to wearing many different hats in a very fast paced enviroment. He is an expert in his field and always stays informed on the latest innovations and technical advances in the industry -- social media, best practices in user experiences, search engine optimization and marketing. Sean drives measureable results in anything he takes on."

— **Hilary Smith**, *Marketing Communications Manager, Arrow Electronics*, worked with Sean at Arrow Electronics

"Sean has consistently brought our team the rare combination of technical expertise, a keen understanding of business requirements, and the ability to bridge gaps between different functional groups. In a very cost-conscious environment, his expertise in information architecture and user experience design combined with this business savvy has allowed us to make advances in our web presence that we would not have seen without him. Sean's skillset and personality make him a great asset to the team, and one I would recommend without hesitation."

— **Penny Cotner**, *Director of Technical Marketing, North America, Arrow Electronics*, managed Sean at Arrow Electronics

"I have worked with Sean on the development of serveral web projects and applications over the past few years. He is very well versed in web technologies and great at explaining the technologies and their application to the business. He is a great team player, a great leader and has very strong relationship building skills."

— **Ken Havens**, *Market Development Engineer, Arrow Electronics*, managed Sean indirectly at Arrow Electronics

"I have worked with Sean on various projects over the past few years and most recently managed Sean as part of the North American web services team. He is very well versed in web technologies while at the same time understands our business and the role of the web in our success. He has built strong working relationships with colleagues, and assumes a leadership role in the projects he is involved in."

— **Diane Harris**, *Market Development Manager, Arrow Electronics*, managed Sean at Arrow Electronics

"Sean is a focussed on delivering high-quality work that will drive the results of the organization. Sean constantly keeps customers in mind when developing new web solutions and strategies. Sean can always be counted on to pitch in and help the team when deadlines are near."

— **Brian Mackintosh**, *Manager, Sales Information Systems, Arrow Electronics*, worked with Sean at Arrow Electronics
